

Title	Introduction to GSA
Duration	5 CPD hours - 1 day workshop
Location	London or at your office
Date	24 September 2008
Price	£320 + VAT

Price includes refreshments, lunch and course materials

The purpose of this course

This one-day workshop will teach you to get the most out of GSA, from the initial model creation to outputting the results.

Who is this course for?

Engineers with some knowledge of concepts for modelling for linear structural analysis who want to learn how to get started with GSA

You will learn how to

- Find your way around the various views and tables in GSA
- Create model geometry from scratch, interactively, and with 3rd party applications
- Load and analyze your structures
- Output the results in multiple formats

Relevant Products

- GSA Analysis
- GSA Bridge
- GSA Building
- GSA Fabric
- GSA Suite
